

'A SHOT OF WHISKY'

A 90-minute film documentary chronicling the untold story of the Whisky a Go-Go...

"The Whisky was on the forefront of every musical trend including Motown, Rock 'N' Roll, Heavy Metal, Punk & New Wave." **Mikeal Maglieri**

"The Whisky was mecca, it was the place in Los Angeles. It was probably the place in the entire country. The top bands played there. It was a place that we wanted very badly to play."

Ray Manzarek, The Doors

"What other club has nurtured every band from Love to the Go-Go's to the Gun Club and is the subject of a tremendously inspired Beverly Hillbillies episode?" **Spin magazine**

'A SHOT OF WHISKY' is the incredible story of the legendary **Whisky a Go-Go** and its unique contribution to popular music in America. No other venue has nurtured generations of music legends such as **Johnny Rivers, Frank Zappa, Love, The Doors, Buffalo Springfield, Guns 'N' Roses, Motley Crue** and many more.

It's been said the bands made the gig and the gig made the bands. This 90-minute documentary, made **in conjunction and with the full cooperation** of the **Maglieri family**, will feature exclusive interviews with bands, artists, managers, roadies, fans, journalists and staff. By documenting stories from both sides of the stage, together with rare performance footage compiled over 40 years, 'A Shot Of Whisky' will show their experiences are inseparable and intertwined with those of the venue itself, while also presenting a unique view of the history of music in America.

In the words of **Mario Maglieri** who made the Whisky a Go-Go into one of the most successful and respected family-owned businesses in America: **"Rock 'N' Roll will be here forever. It ain't going to change!"**

So sit yourself down and pour yourself a shot...of Whisky!
